NT	National Treasury
PT	Provincial Treasury
SCM	Supply Chain Management
UIFW	Unauthorised, Fruitless and Wasteful expenditure

1 Introduction

The National Treasury has delegated 26 of 27 Limpopo municipalities to Limpopo Provincial Treasury to carry out its functions stated in the MFMA. In terms of section 5(1), Chapter 2 of Municipal Finance Management Act of 2003, National Treasury must:

- (a) Fulfill its responsibilities in terms of Chapter 13 of the Constitution and this Act;
- (b) Promote the object of this Act as stated in section 2-
 - (i) Within the framework of co-operative government set out in Chapter 3 of the Constitution; and
 - (ii) When coordinating intergovernmental financial and fiscal relations in terms of the Intergovernmental Fiscal Relations Act, 1997 (ActNo.97 of 1997), the annual Division of Revenue Act and the Public Finance Management Act; and
- (c) Enforce compliance with measures established in terms of section 216 (1) of the Constitution, including those established in terms of this Act.

Limpopo Provincial Treasury is responsible for providing support, guidance and direction to Limpopo municipalities and municipal entities to enable municipalities to implement and maintain effective systems of financial management, budget management, risk management, Internal audit services, supply chain management, internship program and general compliance with the MFMA.

2 Purpose

The purpose of this report is to provide an overview of the state of Limpopo municipal finances. This report contains the consolidated monthly budget statement from the municipal in-year financial monitoring system (i.e., MFMA section 71 reports).

3 Background

Section 154 (1) of The Constitution of the Republic of South Africa, 1996 provides for national and provincial spheres of government to support and strengthen the capacity of municipalities to manage their own affairs, to exercise their powers and to perform their functions.

In terms of Section 5(4) of the Municipal Finance Management Act, no 53 of 2003 Provincial Treasury

- (a) must monitor
 - (i) compliance with this Act by municipalities and municipal entities in the province.
 - (ii) the preparation by the municipalities in the province of their budgets
 - (iii) the monthly outcomes of those budgets; and
 - (iv) the submission of reports by municipalities in the province as required in terms of the MFMA
- (b) may assist municipalities in the province in the preparation of their budgets
- (c) may exercise any powers and must perform any duties delegated to it by the National Treasury in terms of the MFMA, and
- (d) may take appropriate steps if a municipality or municipal entity in the province commits a breach of the MFMA.

Section 71 of the Municipal Finance Management Act (MFMA) requires all municipalities to submit monthly budget statements to the Provincial Treasury by the 10th working day of each month. The MFMA and the Municipal Budgets and Reporting Regulations require municipalities to submit a set of reports in a prescribed format and in this regard, Provincial Treasury monitors the level of compliance by all municipalities on the 10th working day and further assess the municipal budget implementation.

Section 71(7) of the MFMA requires the Provincial Treasury after the end of quarter to make public a consolidated statement on the state of municipalities' budgets per

municipality and per municipal entity. This report is accordingly submitted to serve this required purpose.

Provincial Treasury uses the Local Government Database of National Treasury as the primary source for the data used and analysed in this report. It should be noted that the quality of this report depends on the credibility of the information contained in the reports submitted by municipalities.

This report provides a high-level review of the budget implementation for the Limpopo municipalities for the quarter ending 31 March 2023.

4 Key highlights – For March 2023

- Billed Revenue

The overall year to date (March 2023) provincial operating revenue performance was reported as R31.279 billion or 169 percent of the year-to-date operating revenue budget of R18.502 billion. The over – performance is due to incorrect data strings submitted by Greater Tzaneen municipality who reported a year-to-date actual performance of R12 billion although the overall budget is merely R700 million. A total of thirteen municipalities did not achieve the year-to-date budget.

- Conditional Grants Spending

(Disclaimer- Grants Spending covers 19 Conditional Grants)

The year-to-date Grant spending was at 34 percent, which is R2.280 billion spending against R6.709 billion annual budget allocation. The Provincial Treasury continues to provide support to municipalities around spending of conditional grants as the rollover applications made for the previous financial year (2020/2021) for use in 2021/2022 financial year were high at a value of R387 million. The rollover applications for 2021/2022 stood at R421 million leading to an increase of 8 percent (R34 million) compared to previous year. Furthermore only 25% (R103 million) of the R421 million was approved by National Treasury.

Two municipalities, namely, Ephraim Mogale and Musina reported zero grant spending as at 31 March 2023 which is an indication of incorrect/non credible information. It has also been observed that the MIG spending reports sent to CoGHSTA monthly are significantly different to the information that is being report to the National Treasury Local government database. This inconsistency increases the risk of municipalities losing their funds during the roll –over applications, as assessments would be based on the incorrect and incomplete information reported in the NT system.

- Capital Expenditure

Overall actual capital expenditure stood at only 58 percent of the year-to-date budget of R5.007 billion. Only three municipalities met the year-to-date budget being (Greater Letaba, Collins Chabane and Capricorn)

- Debtors/Accounts Receivables

The debtors' book for municipalities in the province stood at R15.045 billion with 87 percent of the amount over 90 days and thus unlikely to be collectable. Six municipalities namely, Blouberg, Mopani, Elias Motsoaledi, Makhuduthamaga, Mogalakwena and Waterberg have not reported on debtors. Mopani district has the Highest Debtors reported at R4.561 billion with Sekhukhune district reporting the lowest at R957 million. A total of seven municipalities did not disclose the debtors owed by Households. Detailed information on debtors is provided for in Appendices 6 and 7.

The Debtors customer group with the highest debt remains to be households at 66 percent of total debt which indicates either weak credit controls or that municipalities' indigent registers are not being adequately updated to include the growing number of poor households.

- Creditors /Accounts Payables

Municipalities continue not to pay suppliers within the legislated 30-day period. The period under review indicates that 14 percent (R273 million) is due to creditors under 0 to 30 days with 79 percent (R1.570 billion) being debt over 90 days. The creditors category with the highest debt reported is trade creditors at 83 percent (R1.646 billion) followed by bulk electricity at 6 percent which is worrying as it indicates that municipalities are struggling to settle the creditors raised through service delivery implementation.

Waterberg district reported the highest creditors at 73 percent (R1.516 billion). Vhembe district reported the lowest creditors at 2 percent (R15.205 million) of total Creditors. A total of five municipalities namely, Greater Giyani, Elias Motsoaledi, Ephraim Mogale, Makhuduthamaga and Waterberg have not reported any amounts owed to creditors which is a misrepresentation that distorts any reasonable analysis. It is also evident that municipalities are grossly understating creditors as municipalities such as Bela-Bela, Modimolle-Mookgophong, Mogalakwena, Musina, and Thabazimbi are still having huge amounts due to ESKOM and other creditors. The non-payment of creditors destroys the SMMEs in the region, stifles economic growth, results in job losses and increases risks of litigations which will further put municipalities in financial distress.

- Funding Mix

The funding mix of capital budgets is limited to only own revenue and grants. Municipalities cannot afford to assume loans to fund their capital expenditures due to the inability to afford the repayments as well as declining cash flows. The municipalities that can afford to assume borrowing show no appetite due to the volatile economy where the risk of reduction in the equitable share is an ever-present danger. Appendix – 3 provides detail information on the funding mix used for the capital expenditure.

- Repairs and Maintenance

The budgeting for repairs and maintenance remains significantly inadequate when compared with the municipalities' asset base. This has resulted in ailing infrastructure,

such as unrepaired roads, dysfunctional street lighting, water losses due to pipe bursts, etc. Furthermore, the spending on the repairs and maintenance budgets remains poor.

- Budgeting within the Financial Systems

LPT observed that there are still municipalities in the province that budget outside their respective financial systems contrary to the mSCoA regulations. This results in the in-year reporting being distorted from the initial budget targets and could result in municipalities incurring high UIFW at the end of the year. The Provincial Treasury has once more held mSCoA live demonstration sessions in April 2022 to assess the extent of mSCoA compliance and system usage by municipalities in attempts to assist in full usage of the financial systems. The results of the live demonstrations fully indicate that the municipalities still have challenges in implementing mSCoA.

This poor reporting also results from an over-reliance on the system vendors in populating municipal performance information. The mSCoA regulations are clear in that municipalities should be the custodians of their own information and should be able to budget, transact and report from their financial systems without assistance. The system vendors should only assist in cases where accounts were mapped incorrectly.

Overall, the operating revenue budget (R23.654 billion) for 2022-2023 Financial year increased by 8 percent from the 2021-2022 revenue budget of R21.870 billion. The expenditure Budget on the other hand increased by 4 percent.

6 Budget Implementation Overview

This consolidated State of Municipal Finances report covers the financial performance of the municipalities for the 9-month period to March 2023 in the 2022/23 fiscal year. The consolidated report assesses the in-year financial performance of the municipalities against the budgeted revenue and expenditure. The assessment of the in-year financial performance is based on the s71 returns which include capital and operating budgets as well as debtors, creditors, cash flow and grants that were submitted by municipalities. The focus of this assessment is on the credible implementation of municipal budgets in relation to the IDP and SDBIP objectives.

6.1 Consolidated Budget Performance

This section of the report focuses on the financial health of the municipality as reflected in Table 2 Consolidated Budget Performance Summary.

Table 2: Consolidated Budget Performance Summary for the Period ending 31 March 2023

Source: National Treasury Local Government Database

For the 9 months ending 31 March 2023 (M09), Consolidated Total Revenue (excluding capital transfers and contributions) of R31.279 billion was recognised against Year-to-Date (YTD) budget of R18.502 billion. During the same period Consolidated Expenditure was reported at R14.004 billion against the YTD budget of R16.825 billion resulting in under expenditure by 17 percent. The consolidated net surplus for the 9-month period, including capital transfers and contributions was R19.438 billion which is incorrectly influenced by the incorrect data strings submitted by Greater Tzaneen as mentioned under key highlights (Billed revenue). For the quarter ending March 2023, the municipalities have on average collectively recorded a surplus of R15.280 billion, after considering the Capital transfers from National and Provincial Government.

6.1.1 Operating Revenue

Municipalities have on average raised R31.279 billion or 169 percent of the year-to-date operating revenue budget of R18.502 billion. In the absence of the error made by Greater Tzaneen, Grants remain the main source of revenue for municipalities. Based on the strings submitted, electricity reported as the highest source of revenue at 48 percent.

Table 3 below presents the extract of sequential performance and state of the revenue sources for the 9-month period ending March 2023.

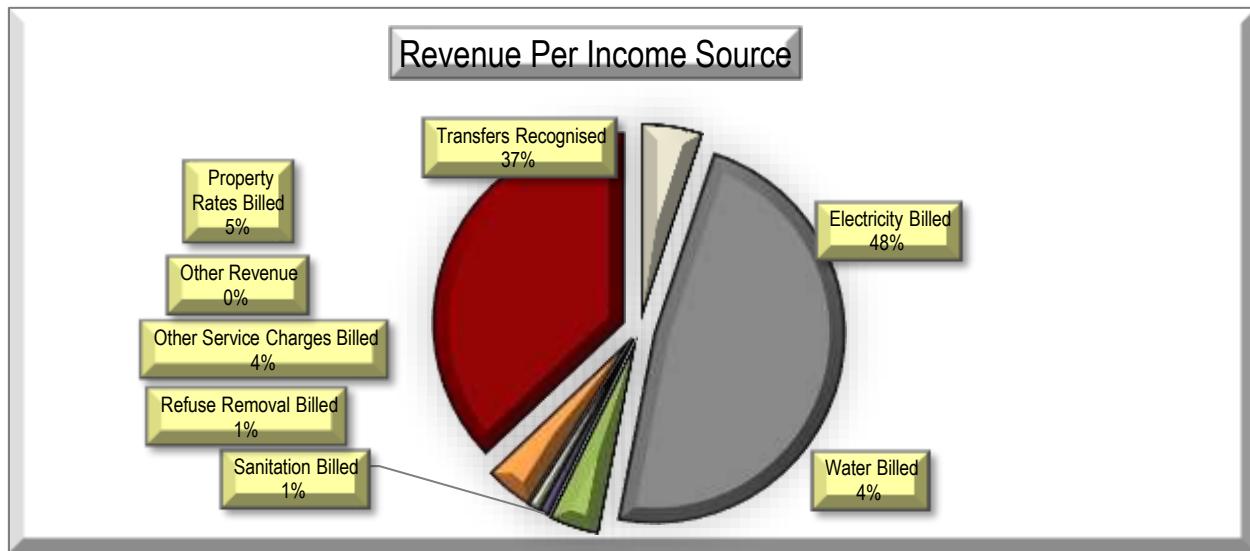

Table 3: Total Revenue contribution per Income Source

Rating	Revenue Source	R thousands	Percent
1	Electricity Billed	14 993 859	48%
2	Transfers Recognised	11 603 932	37%
3	Property Rates Billed	1 595 795	5%
4	Water Billed	1 294 209	4%
5	Other Service Charges Billed	1 247 264	4%
6	Refuse Removal Billed	295 395	1%
7	Sanitation Billed	249 019	1%
8	Other Revenue	-	0%
Totals		31 279 473	100%

Source: National Treasury Local Government Database

Figure 1 below provides a breakdown of the percentage contribution of each revenue source.

Figure 1: Revenue per Income Group

Source: National Treasury Local Government Database

Of serious concern is the under reporting of revenue in key revenue generating items such as property rates, electricity, fines and penalties and other revenue.

Municipalities are advised to maximise current revenue streams and investigate other revenue streams to augment the current streams thereby reducing heavy reliance on grants. Municipalities are required to verify figures reported to ensure that there is alignment between figures presented in Municipal Council and figures reported to National Treasury LG database. Furthermore, municipalities are advised to review the reported figures for accuracy and completeness as uninformed financial decisions may be made due to non-credible information.

6.1.2 Operating expenditure

For the nine-month period ending 31 March 2023, total operating expenditure amounted to R14.004 billion or 83 percent against the year-to-date budget of R16.825 billion. The lower than forecast spending is not necessarily cost savings that municipalities have realised for the period. Eleven out of 27 municipalities did not account for depreciation for the 9-month period. The highest contributors to R1.1 billion depreciation expense are Polokwane municipality with R623 million and Makhado municipality with R96 million. Only three municipalities have accounted for debt impairment, however the amounts are insignificant in comparison with long outstanding municipal debtors.

The consolidated Employee related cost is down against the budget by R556 million, and Electricity bulk purchases (down by R85 million), Inventory Consumed (down by R385 million), Contracted services (down by R441 million). It will be important for the various municipalities to review these expenditure items to verify the correctness.

Table 4 shows an extract of the sequential performance per Expenditure Item for the nine-month period ending March 2023.

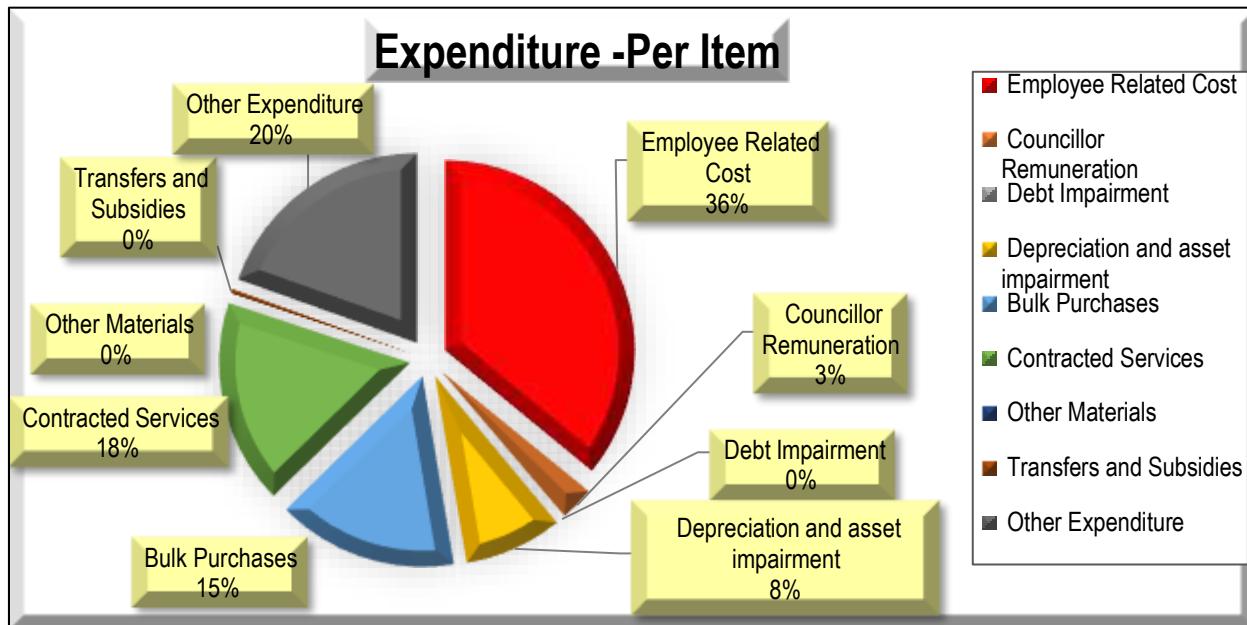

Table 4: Total expenditure contribution per Expenditure Type

Rating	Expenditure Item	R thousands	Percent
1	Employee Related Cost	5 030 615	36%
2	Other Expenditure	2 738 339	20%
3	Contracted Services	2 435 610	17%
4	Bulk Purchases	2 145 900	15%
5	Depreciation and asset impairment	1 160 266	8%
6	Councilor Remuneration	403 973	3%
7	Transfers and Subsidies	52 478	0%
8	Debt Impairment	37 341	0%
Totals		14 004 522	100%

Source: National Treasury Local Government Database

Figure 2 below provides a breakdown of the percentage expenditure per item for municipalities in the province.

Figure 2: Expenditure Per Item

Source: National Treasury Local Government Database

The depreciation and the debt impairment expenditure remain understated at the end of March. This shows that the asset module within the municipal financial systems is still not fully utilised. It is also an indication that generally, municipalities account for depreciation only at year end. This is poor financial management and may result in unauthorised expenditure.

6.1.3 Cash flow

Municipalities in the province closed the month of March 2023 with consolidated surplus cash and cash equivalent of R11.989 billion. The Cash and cash equivalents at beginning of the year were R4.387 billion. A net increase in cash and cash equivalents of R7.358 billion was realised. The underspending on conditional grant funds is a concern and has contributed to the increase in the cash status of municipalities. Treasury continues to monitor and provide advice on the mapping of the cash flow.

6.2 Financial Performance – District Breakdown

This section summarizes the revenue and expenditure performance per district.

6.2.1 Operating Revenue per district

Table 5 below shows the operating revenue performance broken down per district and the main revenue items for the nine-month period ending 31 March 2023.

Table 5: Operating Revenue per district

Operating Revenue Per District-M09 March 2023

Source: National Treasury Local Government Database

As at M09 (March) the original total operating revenue budget for the province stood at R23.654 billion. The year-to-date revenue budget stands at R18.502 billion as at 31 March 2023 of which R31.279 billion was realised and thereby creating overperformance against the budget to date.

Mopani district municipalities realised the highest year-to-date revenue against its budget due to incorrect data strings specifically for Greater Tzaneen. The second highest revenue raised was by Sekhukhune District municipalities at 110 percent followed by Capricorn at 102 percent and Vhembe at 99 percent. Waterberg district recorded the lowest at 96 percent. Detailed information per municipality is shown in Appendix – 1.

6.2.2 Operating Expenditure per District

Table 6 below shows the operating expenditure performance broken down per district and the main expenditure items for the nine-month period ending 31 March 2023.

Table 6: Operating Expenditure per district

Source: National Treasury Local Government Database

The original total operating expenditure budget for the province stands at R22.681 billion. The aggregate year-to-date expenditure budget stands at R16.825 billion as at 31 March 2023 of which R14.004 billion was spent during the period yielding an under-performance of 17 percent. This is mainly due to municipalities underspending on contracted services, understatement of depreciation, debt written off and debt impairments during the financial year. Operating Expenditure per municipality is shown in Appendix – 2.

Capricorn district spent the highest expenditure in relation to its year-to-date budget at 96 percent with Sekhukhune district being the lowest at 75 percent. Mopani, Vhembe, and Waterberg respectively recorded 81, 81 and 76 percent.

6.2.3 Capital spending and sources of finance

Table 7: Capital Expenditure per district

Capital Expenditure Per District -M09 March 2023

Source: National Treasury Local Government Database

The original capital budget for municipalities in the province stood at R6.712 billion with a reported year-to-date capital budget of R5.077 billion. Actual year to date spending stands at R2.930 billion being 58 percent of the year-to-date budget.

Mopani district reflected the highest capital expenditure against the budget at 66 percent with Waterberg district recording the lowest at 42 percent. Vhembe, Capricorn, and Sekhukhune respectively recorded 62 ,58 & 54 percent. Detailed capital expenditure for each municipality is shown in Appendix – 4.

Figure 3 below provides a breakdown of the percentage capital expenditure per vote for municipalities in the province.

Figure 3: Capital Expenditure Per Item

Source: National Treasury Local Government Database

It can be observed that Economic and Environmental services (49 percent) make up the largest portion of year-to-date capital expenditure with Waste management being the lowest at 1 percent. Water management is the second highest at 33 percent with Energy sources at 6 percent, Community and public safety at 5 percent, Municipal governance and administration at 4 percent and Waste - water management at 2 percent.

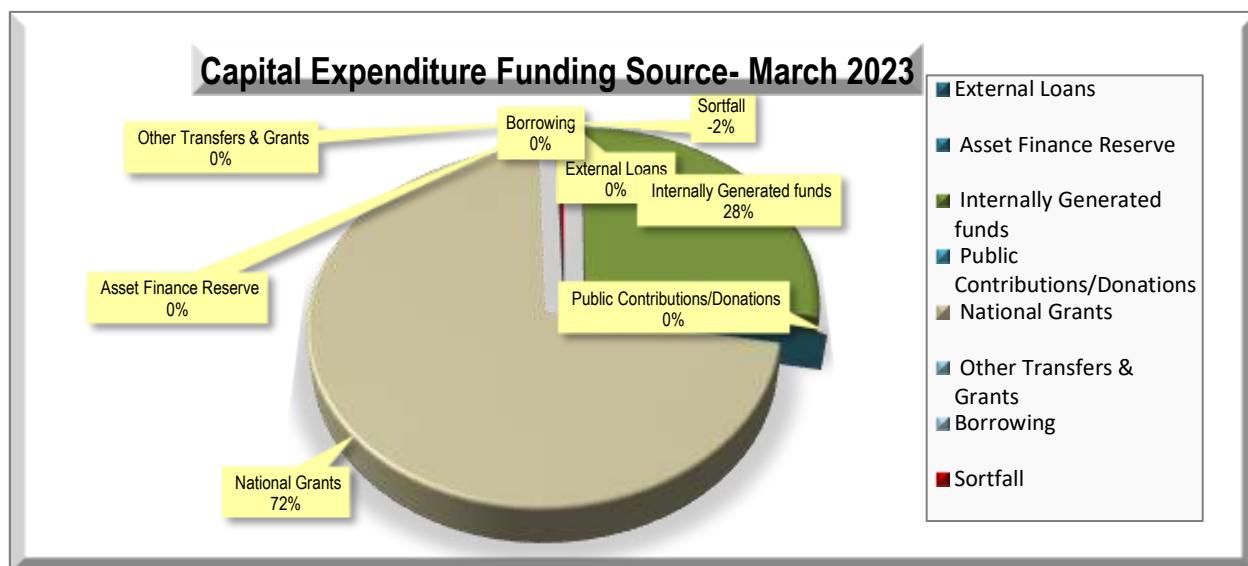

Table 8 below further provides for the sources to finance to the above capital expenditure for M09 of 2022/23 financial year.

Table 8: Source of Finance for Capital Expenditure

Source: National Treasury Local Government Database

Figure 4: Capital Expenditure per Funding Source

Source: National Treasury Local Government Database

Table 8 and Figure 4 above indicate that municipalities' capital budgets are funded mainly from two sources namely, national grants and own revenue.

National grants make up 72 percent (R2.121 billion) of the year-to-date actual capital funding of R2.930 billion with own revenue making up 28 percent (R823 million) of year-to-date capital expenditure. Most municipalities cannot afford to take up loans to fund their capital expenditures due to the inability to afford the repayments as well as declining cash flows. The municipalities that can afford to take up borrowing show no appetite due to the volatile economy where the risk of reduction in the equitable share is an ever-present danger. Detailed Capital source of Finance is shown in Appendix – 3.

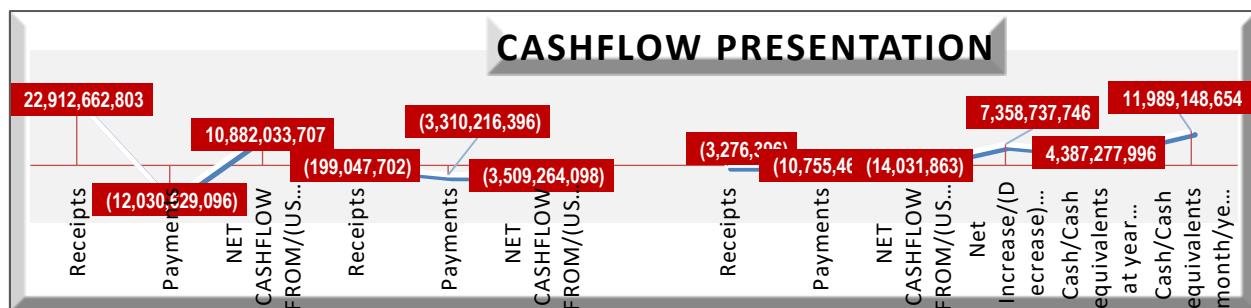

6.2.4 Cash Flow

Table 9: Cash Flow

R thousands	Cashflow from Operating Activities			Cashflow from Investing Activities			Cashflow from Financing Activities			Net Increase/(Decrease) in Cash Held	Cash/Cash equivalents at year begin	Cash/Cash equivalents month/year end

Source: National Treasury Local Government Database

Figure 5: Cash flow Statement

Source: National Treasury Local Government Database

The cash flow mapping remains to have issues as reported in the previous and current year reports, the PT will continue to exert more emphasis in monitoring the performance of the cash flow mapping to ensure that the mapping issues are resolved and that the reporting is correct on a month-to-month basis.

From the information provided municipalities in the province closed the month of March 2023 with a surplus cash and cash equivalent of R11.989 billion. The Cash and cash equivalents at beginning of the year were R4.387 billion. A net increase in cash and cash equivalents amounting to R7.601 billion was realised during the period.

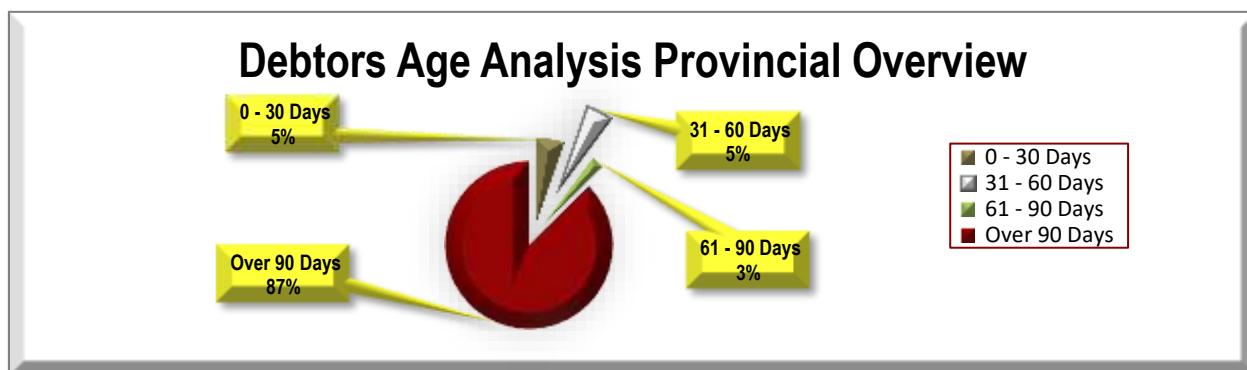

6.2.5 Debt Management

Table 10: Debtors Age Analysis

Debtors Detail - M09 March 2023									
R thousands	0 - 30 Days		31 - 60 Days		61 - 90 Days		Over 90 Days		Total
	Total	%	Total	%	Total	%	Total	%

Source: National Treasury Local Government Database

Figure 6: Debtors Age Analysis - Provincial Overview

Source: National Treasury Local Government Database

Figure 6 reveals that 87 percent of the customers have been outstanding for a period of over 90 days. This is an indication that municipalities do not effectively implement debt and credit control policies to collect debt due. The district with the most debtors over 90 days is Sekhukhune at 92 percent with Vhembe having the lowest at 82 percent. Mopani, Waterberg, and Capricorn respectively recorded 90,88 and 87 percent of debtors over 90 Days.

Non-collection of revenue negatively impacts the financial sustainability of municipalities. Furthermore, non-payment of services rendered may lead to delays in the implementation of the budget. It must be noted that 6 municipalities as stated in section 4 of the report did not provide their debtors' book information and thus the reported debtor amounts are understated and misrepresented.

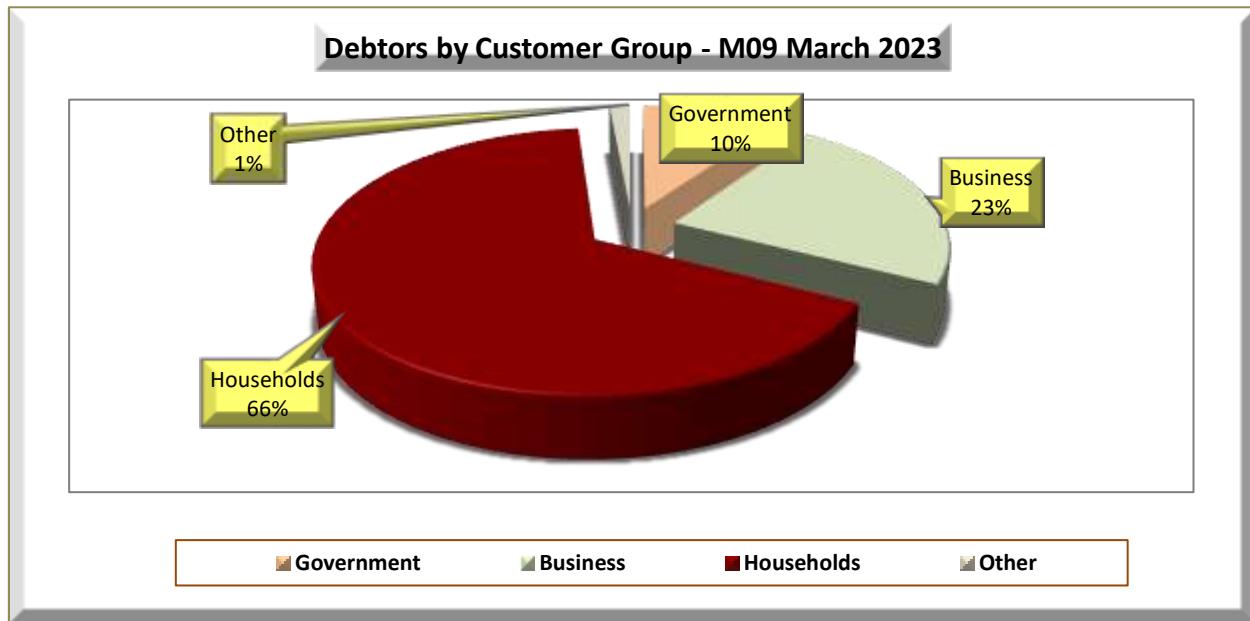

Table 11: Debtors by Customer per district

Source: National Treasury Local Government Database

Table 11 indicates that the total debtors up to the end of February 2023 categorized by customer group amounted to R15.045 billion. Outstanding debtors in respect of Households are the highest at R9.927 billion or 66 percent of the total debtors and government debts due to municipalities amounts to R1.471 billion (10 percent) with business category at R3.429 billion (23 percent).

Figure 7: Debtors by Customer Group

Source: National Treasury Local Government Database

The following can be noted based on Table 11 and Figure 7 above for the period under review:

- Despite the pandemic effects, credit control needs to be emphasized mostly over households.
- Government forums which have already been established need to continue their effective mandate over resolving the government debt as it currently accounts for 10 percent of the total outstanding debt.
- Limpopo Treasury will continue to monitor the payments by departments through the Departmental In Year Monitoring System.
- Municipalities are not correctly classifying their debts and a large number are not reporting on the debt books.

6.2.6 Creditors Management

Table 12 provides the Creditors ageing for the period ended 31 March 2023

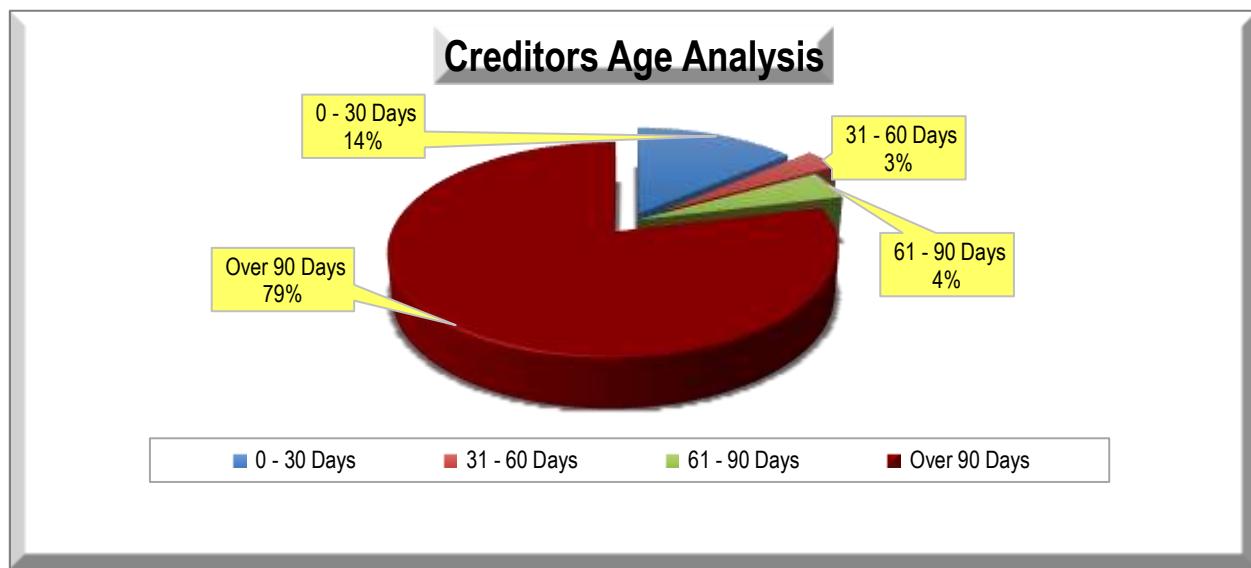

Table 12: Creditors Age Analysis per District

Creditor Age Analysis - M09 March 2023

Figure 8 below provides snapshot overview of the Creditors Ageing.

Figure 8: Creditors Age Analysis - Provincial Overview

Source: National Treasury Local Government Database

Table 12 and Figure 8 above indicate that the total creditors as reported for the period ending 31 March 2023 categorised by district amounted to R1.992 billion. Outstanding creditors in the bracket “Over 90 days” are the highest at R1.570 billion or 79 percent of the total outstanding creditors. It must be noted that 5 municipalities as mentioned before under section 4 did not report on the outstanding creditor balances and that the amount outstanding, as reported, is grossly understated and misrepresented.

Table 13 shows creditors by District and by item, Figure 9 below then further provides for creditors by customer group. Vhembe, Mopani, Modimolle-Mookgophong and Thabazimbi did not provide for bulk water creditors. Municipalities with electrification licenses are not reflecting their ESKOM account balances, except for Polokwane, Ba-Phalaborwa, Bela-Bela, Greater Tzaneen and Mogalakwena. This information is contrary to the s41 reports received from National Treasury which reflect that municipalities owe Water Boards and Eskom huge sums of money. Appendix – 9 reflects the detailed creditors for each municipality per customer group.

Figure 12 : Conditional Grants District Performance

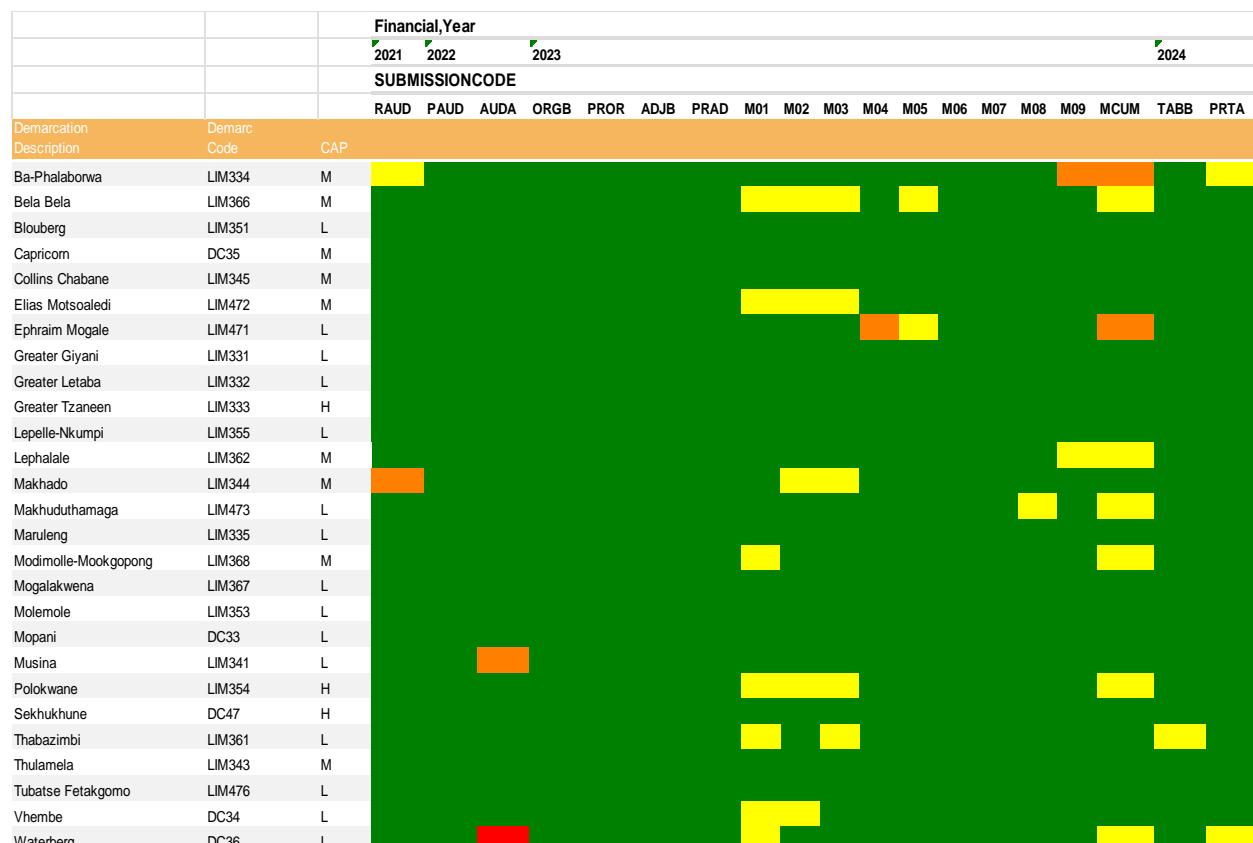

Source: National Treasury Local Government Database

At the end of 31 March 2023, the aggregate conditional grants spending stands at 34 percent, based on a straight-line projection the expenditure should be 75 percent, which indicates that grant spending is lagging as at 31 March 2023.

7 mSCoA - Summary - Upload and Segment Validation

Table 15 below shows the status of Limpopo municipalities' financial submissions and validations for the period ending 31 March 2023.

Table 15 : mSCoA uploads

Legend explanations

- [Green Box] - correct (Phase 2),
- [Yellow Box] - Segment errors (Phase 2),
- [Orange Box] - Submitted with Error (Phase 1)
- [Red Box] - Outstanding,
- [White Box] - N/A

8 Assistance Provided

LPT conducted the mid-year engagements to assess the financial performance of municipalities during the quarter that ended on the 31 March 2023. The department also provides support on monthly budget statements uploaded on the NT database.

10 Summary and Conclusion

The reporting on mSCoA remains relatively good, however the credibility of the reported figures remains a challenge particularly about cash flow, capital expenditure, debtors, and creditors. Grant spending reporting is not adequate, and the spending is not satisfactory which requires municipalities to apply for funds to be rolled over to the next financial year. This practice delays service delivery and risk escalation of project costs

Municipalities are encouraged to align the municipal business processes to the municipal accountability cycle to ensure that funds are spent timely and on intended purposes. Revision of targeted projections should be realistic to ensure that the adjustment budget and SDBIP targets are achieved.
